Au nom du conseil d'administration, il me fait plaisir de vous souhaiter la bienvenue à Montréal et au 70<sup>e</sup> congrès annuel de la Société canadienne d'ophtalmologie. C'est avec fierté et enthousiasme que je vous présente ce programme. Tous ceux et celles qui se préoccupent des soins oculaires trouveront à ces assises de quoi retenir leur attention.

Je profite de l'occasion pour saluer le dévouement du Conseil du perfectionnement professionnel continu et celui des comités de formation des professions connexes de la santé qui n'ont ménagé aucun effort pour mettre au point l'excellent programme scientifique de cette année.

Les distinctions de Reconnaissance pour l'ensemble d'une carrière seront décernées lors d'une cérémonie spéciale qui aura lieu le jeudi à 13 heures, à la salle Marquette/Jolliet. Ne ratez pas cette occasion particulière de rendre hommage à nos aînés.

Prenez le temps de visiter tous les kiosques, et ceux des salles Hochelaga en particulier. L'exposition aura pour thème « Les rues de Montréal » et les exposants rivalisent d'ingéniosité pour vous présenter leurs produits et services.

Après les ateliers scientifiques de la première journée, nous souhaiterons la bienvenue aux délégués et à leurs familles lors de la Réception d'accueil animée par des amuseurs publics à la Salle d'exposition. Ce sera une excellente occasion de visiter l'exposition et de prendre contact avec les exposants et les collègues.

Le Jogging matinal aura lieu le jeudi matin. Les participants sont priés de se réunir dans le hall de l'hôtel à 6 h 30.

La soirée de gala de cette année sera parrainée par l'Association des médecins ophtalmologistes du Québec et prendra la forme d'un dîner-dansant le vendredi.

En outre, la Ville de Montréal offrira plusieurs activités intéressantes pour vous et vos familles. Nous espérons que vous apprécierez votre séjour à Montréal.

Alan F. Cruess, MD, FRCSC

On behalf of the Board of Directors I would like to take this opportunity to welcome you to Montréal and to the 70<sup>th</sup> Annual Meeting of the Canadian Ophthalmological Society. It is with pride and excitement that we present this program to you. There will truly be something for everyone involved in eye care at this meeting!

I would also like to acknowledge the dedicated efforts of the Council on Continuing Professional Development and the education committees of the allied health groups who have worked so hard to put together an exciting scientific program this year.

The Lifetime Achievement Awards will be presented during a special ceremony in the Marquette/Jolliet room on Thursday at 1PM. Don't miss this special honour to senior ophthalmologists.

Please take time to visit all the exhibits, particularly those in the Hochelga rooms. The theme for the exhibits is 'Streets of Montreal' and the exhibitors have designed creative displays to showcase their products and services.

After the scientific sessions of the first day, we welcome delegates and their families to the Welcome Reception, featuring street performers, in the Exhibit Hall. This is an excellent opportunity for visiting the exhibition and making contacts with the exhibitors and colleagues.

The annual Fun Run is on Thursday morning. Participants are asked to meet in the lobby of the hotel at 6:30 AM.

The gala evening this year has been sponsored by the Association des medecins ophtalmologistes du Québec and will feature a dinner and dance on Friday evening.

In addition, the city of Montréal offers many interesting activities for you and your family. We hope you enjoy your stay in Montréal!

Alan F. Cruess, MD, FRCSC  
President

Il nous fait plaisir de vous inviter à participer aux 70<sup>e</sup> congrès et exposition annuels de la Société canadienne d'ophtalmologie qui se déroulera du 20 au 23 juin 2007 à l'hôtel Fairmont Reine-Elizabeth dans la magnifique ville de Montréal.

Le programme scientifique comprendra 12 séances plénières à l'intention des ophtalmologistes généralistes et spécialistes, ainsi que 7 symposiums pour les surspécialités et plusieurs réunions de comités et cours. Nos conférenciers invités, de réputation internationale,

apporteront leur expertise d'aussi loin que d'Allemagne et des États-Unis.

Encore cette année, nous tiendrons un symposium sur la santé publique et la déficience visuelle. Outre l'assemblée de cette année, nous tiendrons une séance de mise à jour sur les instruments et la technologie d'usage quotidien. Les séances sur les Notions courantes ont été réparties en deux groupes, le « diagnostic » et la « chirurgie », pour exprimer certaines notions dernier cri que rencontrent les praticiens.

Félicitations aux récipiendaires de cette année du prix d'Excellence SCO en recherche ophtalmologique. Voir détails à la page 19.

Il y aura un Forum sur *le registre des blessures oculaires* le jeudi 21 juin et un sur le *STSA* le samedi 23 juin.

Du nouveau pour 2007!

Les « E-posters »! De courtes présentations électroniques des résumés scientifiques présentés au congrès. Allez les voir et donnez-nous vos impressions. Les auteurs seront admissibles au Prix de la meilleure affiche. L'annonce des gagnants se fera au symposium sur les Notions courantes II.

L'exposition comprendra aussi d'intéressants modèles d'équipement et d'instrument qui retiendront sans doute l'attention des visiteurs. Nous remercions nos commanditaires de l'industrie dont l'appui rend possible ce congrès annuel.

Le programme au complet des assises sera accessible dans le site Web de la SCO : [www.eyesite.ca](http://www.eyesite.ca)

Il nous tarde de vous accueillir à ces assises auxquelles on a alloué officiellement un maximum de 24 heures de crédits de PPC. En outre, la visite des affiches peut vous mériter un crédit par heure de visite. Les délégués devront se rappeler de réclamer leurs crédits uniquement pour les heures de participation à chaque séance de formation.

Le programme scientifique a été mis au point de façon à promouvoir le maximum d'échange d'information entre les experts et à mettre à jour le savoir des ophtalmologistes et des membres des professions connexes de la santé qui souhaitent se tenir au fait de la passionnante évolution de l'ophtalmologie.

Guillermo Rocha, MD, FRCSC  
Président, Conseil du perfectionnement professionnel continu

It is our pleasure to invite you to be part of the 70<sup>th</sup> Annual Meeting & Exhibition of the Canadian Ophthalmological Society scheduled to take place from June 20 to 23 2007 at Fairmont the Queen Elizabeth Hotel in beautiful Montréal.

The scientific program consists of 12 plenary sessions targeted to both general and subspecialist ophthalmologists, along with 7 subspecialty symposia, and a number of committee meetings and courses. Our world-renowned Guest Speakers will bring their expertise from as far as Germany and the United States.

Once again this year, we will feature Public Health and Low Vision Symposia. An addition to this year's meeting will be an update session on instrumentation and electronics for everyday use. The Current Concepts sessions have been divided into "diagnostic" and "surgical" to reflect some of the state-of-the-art concepts we encounter as practitioners.

Congratulations to this year's winners of the COS Award for Excellence in Ophthalmic Research. See page 19 for details.

There will be two Town Hall meetings. Thursday 21 June on *Eye Injury Register* and Saturday 23 June on *TASS*.

New for 2007 will be "E-posters". These are short electronic presentations of abstracts submitted to the meeting. Please check them out and let us know what you think. All poster presenters are eligible for the Best Poster Award. Winners will be announced during the Current Concepts II symposium.

The meeting will also feature an interesting sample of equipment and instruments in the technical exhibits which undoubtedly will be of interest to all in attendance. We are indebted to our industry sponsors for their support in making this annual meeting possible.

The full program is available through the web pages of the COS:  
**[www.eyesite.ca](http://www.eyesite.ca)**

We look forward to your participation in this meeting approved for a maximum of 24 CPD credit hours. In addition, poster viewing may earn 1 credit per hour of viewing. Delegates are reminded to claim only hours attended in each educational session.

The scientific program has been designed to promote maximum exchange of information between experts and to update ophthalmologists and allied health professionals who wish to keep pace with the exciting changes in ophthalmology.

---

Guillermo Rocha, MD, FRCSC  
Chair, COS Council on Continuing Professional Development

## L'Association des médecins ophtalmologistes du Québec vous invite

Au nom de l'Association des médecins ophtalmologistes du Québec (AMOQ), j'ai l'honneur d'accueillir à Montréal nos collègues de tous les coins du pays aux importantes assises annuelles de la SCO. **L'AMOQ a aussi le grand plaisir de parrainer la Soirée de gala de la Société.**

Venez profiter avec nous de cette occasion particulière de vous détendre et partager ensemble, outre les saveurs d'un délicieux dîner quatre services, la joie de se retrouver entre collègues et amis de longue date. Un divertissant spectacle vous attend dans la superbe Ruelle des Fortifications, à quelques minutes de marche du Reine-Elizabeth.

La Ruelle des Fortification est un atrium bourgeonnant de boutiques, d'aires de restauration, d'expositions artistiques, avec son morceau du Mur de Berlin parsemé de graffitis. La statue d'Amphitrite (épouse de Poseidon), pièce du 18<sup>e</sup> siècle provenant de la fontaine municipale de Saint-Mihiel-de-la-Meuse, en France, surplombe sa fontaine. C'est à cet endroit aussi que se dressait l'ancien mur de Ville-Marie. Les promoteurs ont recouvert la ruelle d'un toit de verre, décapé au jet de sable et restauré 11 des édifices du 19<sup>e</sup> siècle qui la bordent.

Venez goûter Montréal, ma ville natale, renommée pour ses festivals de musique, la variété et la qualité superbe de ses restaurants et de ses divertissements.

Au plaisir de vous y accueillir tous.

Jean Daniel Arbour, MD, FRCSC  
Président  
AMOQ

**Endroit : La Ruelle des Fortifications**  
**Date : Vendredi 22 juin**  
**Heure : 19 h – 23 h**

## Invitation from the Association des médecins ophtalmologistes du Québec

On behalf of the Association des médecins ophtalmologistes du Québec (AMOQ), I am honored to welcome our colleagues from all parts of the country to a great COS meeting in Montréal. **The AMOQ is very pleased to sponsor the COS Gala on Friday evening.**

Please join us for an opportunity to relax and enjoy a four course dinner with colleagues and old friends at our very own street festival. Entertainment will be provided at La Ruelle des Fortifications, a short walking distance from the Queen Elizabeth hotel.

La Ruelle des Fortifications is a narrow, soaring atrium that houses boutiques, a food court, frequent art exhibits, and Montréal's own chunk of the Berlin Wall, complete with graffiti. The semireclining statue of Amphitrite (Poseidon's wife) overlooking the fountain is an 18th-century piece from the municipal fountain of St-Mihiel-de-la-Meuse in France. This location marks the place where the city walls once stood. Developers glassed in the lane and sandblasted and restored 11 of the 19th-century buildings that lined it.

So come and enjoy a taste of Montréal, my hometown, renowned for its music festivals, its fantastic variety and quality of restaurants, and its entertainment.

J. Daniel Arbour, MD, FRCSC  
President  
AMOQ

**Location: La Ruelle des Fortifications**

**Date: Friday June 22**

**Time: 1900 – 2300 hrs**

### **Maintien du certificat**

La présente activité en est une de formation de groupe, agréée en vertu de la Section 1 telle que définie par le Collège royal des médecins et chirurgiens du Canada pour le programme de maintien du certificat, selon l'approbation du 28 février 2007. Vous pouvez demander 1 crédit pour chaque heure de participation aux activités scientifiques et un crédit par heure de visite des affiches. On peut acquérir 24 crédits au maximum, sans compter la visite des affiches.

### **Maintenance of Certification**

This event is an accredited group learning activity under Section 1, as defined by the Royal College of Physicians and Surgeons of Canada for the maintenance of certification program. Approved February 28, 2007. You may claim 1 credit for each hour of attendance in the scientific sessions and 1 credit per hour of poster viewing. There is a maximum of 24 credits available, plus poster viewing.

---

#### **Groupes visés**

Cette activité de formation s'adresse aux ophtalmologistes généralistes et spécialistes, aux scientifiques fondamentaux, aux résidents en chirurgie oculaire et en médecine, au personnel de soutien, infirmier et technique en ophtalmologie, aux technologues et orthoptistes.

#### **Target Audience**

This educational activity is intended for general and specialist ophthalmologists, basic scientists, residents in ophthalmic surgery and medicine, ophthalmic assistants, nurses, technicians, technologists and orthoptists.

---

#### **Objectifs d'apprentissage**

- Découvrir les derniers développements en matière de diagnostic et de traitement des maladies oculaires pour les ophtalmologistes, pathologistes oculaires, scientifiques de la vision et professions connexes de la santé.
- Avoir un forum d'échanges sur les nouveaux travaux de recherche en ophtalmologie et en science de la vision et donner aux participants l'occasion de discuter des choix de traitements avec les spécialistes.
- Donner aux participants l'occasion de mettre à jour leurs connaissances des médicaments et appareils médicaux en visitant l'exposition.

#### **Program Learning Objectives**

- to present recent advances in the diagnosis and treatment of eye diseases for ophthalmologists, ophthalmic pathologists, vision scientists and allied health professionals.
- to provide a forum for the exchange of new research by ophthalmologists and vision researchers and to provide opportunity for attendees to discuss treatment options with specialty experts.
- to provide attendees with an opportunity to update their knowledge of available pharmaceuticals and medical devices by attending the exhibits.

---

#### **Exposés sur affiches - Objectifs d'apprentissage**

Les participants auront l'occasion d'échanger personnellement avec les auteurs et de discuter en détail des affiches. Demandez un crédit par heure de participation. Veuillez ne pas oublier de remplir les formulaires d'évaluation.

#### **Learning objectives for posters**

Provide opportunity for delegates to interact on a one-on-one basis with the authors, to exchange ideas and to discuss the presentations in detail. Claim 1 credit per viewing hour. Please remember to complete the evaluation forms.

## *Reconnaissance pour l'ensemble d'une carrière*

La Société canadienne d'ophtalmologie a le plaisir de rendre hommage aux ophtalmologistes membres qui ont apporté une contribution importante aux soins oculaires pendant leur carrière.

La distinction Reconnaissance pour l'ensemble d'une carrière est décernée aux personnes qui ont influencé de façon soutenue la croissance de la profession à l'échelle nationale et internationale et maintenu dans leur pratique les normes les plus élevées de soins à leurs patients. Les récipiendaires ont aussi été des modèles solides et indéniables au sein de la collectivité ainsi que des mentors et éducateurs exemplaires.

La société présentera trois distinctions au cours du congrès annuel de Montréal, le 21 juin 2006 à 13 heures à la salle Marquette/Joliette de l'hôtel Fairmount Reine-Elizabeth. Collègues, amis et familles sont invités à assister à ces présentations et à applaudir ces personnes remarquables qui ont représenté la profession au plus haut niveau d'excellence professionnelle et personnelle.

Charles Dyson

Sean B. Murphy

Alain P. Rousseau

The Canadian Ophthalmological Society is pleased to recognize member ophthalmologists who have made a significant contribution to eye care during their lifelong career in medicine.

This Lifetime Achievement Award is presented to individuals who have made a sustained impact nationally and internationally to the growth of the profession and who have maintained the highest standard of patient care in their practice. The recipient of this award has also been a strong and positive role model in the community and an exemplary mentor and educator.

The Society will present three awards on Thursday June 21 2007 at 1300 hrs in the Marquette/Joliet room of Fairmont The Queen Elizabeth hotel. Colleagues, friends and family are invited to attend these presentations to applaud these outstanding individuals who have represented our profession at the highest professional and personal level.

## Cours • Courses

**Mercredi, 20 juin / Wednesday, 20 June**

**1100-1700**

Location  
Saint-Laurent

### **Practice Management for Residents/Practicing Ophthalmologists**

#### **Incorporation**

The incorporation presentation will cover the basic definitions, costs and benefits and tax implications.

- Define and discuss Incorporation including the principle of "integration"
- Review opportunities for tax deferral and tax savings within a corporation
- Contrast the cost and benefits of incorporation as it applies to Ophthalmologists

Lunch

#### **Staffing and Human Resources**

The Staffing Issues presentation discusses the variety of staffing requirements and functions commonly seen in practice. Physicians will learn:

- Staffing requirements, job descriptions
- The hiring process & probationary periods
- Performance evaluations
- Letting staff go – proper dismissal protocols
- Employer responsibilities – payroll and benefits

**Mercredi, 20 juin / Wednesday, June 20 1700-1800**

### ***Réception des résidents et du conseil d'administration de la SCO Residents & COS Board of Directors Reception***

Les résidents présents sont invités à une réception  
à la salle Saint-François

All resident attendees are invited to  
the Saint-François room

**Mercredi, 20 juin / Wednesday, 20 June**

**1300-1430**

Participants must bring their own laptops (loaded with PowerPoint) to participate in this course.

Convenor

B. Hurley

Location

Saint-Maurice

**PowerPoint for Physicians**

**Introduction**

This course is designed to introduce individuals to the use of MS PowerPoint to create multimedia oral presentations. Previous experience with PowerPoint is not required to participate in the course. Specific examples will be used to demonstrate how many of the basic features of PowerPoint may be used to produce effective oral presentations. Opportunity will be provided for all in attendance to gain hands-on experience using PowerPoint on their own computer. Time will be dedicated to addressing specific questions that arise during the workshop.

**1500-1630**

Participants must bring their own laptops (loaded with PowerPoint) to participate in this course.

Convenor

B. Hurley

Location

Saint-Maurice

**PowerPoint for Physicians**

**Advanced Techniques**

This course is designed to review advanced techniques for MS PowerPoint presentations that would be of interest to individuals with previous experience using PowerPoint. A brief introduction will be given outlining recent improvements in PowerPoint. Specific examples will be provided to demonstrate how easy it is to use multimedia custom animation effects to make PowerPoint even more powerful, bringing oral presentations to life and improving their effect on the audience. Opportunity will be provided for all in attendance to gain hands-on experience using these techniques. Ample time will be dedicated to addressing specific questions that arise during the workshop.

**Mercredi, 20 juin / Wednesday, 20 June**

**1530-1630**

Convenor

G.R. LaRoche

Location

Saint-Charles

**How to Prepare an Award-Winning Poster**

The poster session is an integral part of the Canadian Ophthalmological Society's annual meeting. The poster session provides the best forum for extended discussion. In the past few years, the society has attempted to attract even more quality posters by offering a Best Poster Award. The intention is to reward presenters for the extra effort it takes to prepare a top caliber poster presentation. The award judges and readers alike look for a good visual communication that has scientific value. This course will provided the nuts and bolts of creating a good scientific poster that has "punch" and will deliver a staying message: from software to printing, from abstract to data layout, even the tricks to fend off airport security officials will all be discussed!

## Les notions courantes 1 - Chirurgie Current Concepts I - Surgical

Jeudi 21 juin | 0800-0930 | Marquette/Jolliet  
Thursday, June 21

### Groupes cibles - Target Audience

Cette activité de formation s'adresse aux ophtalmologistes généralistes et spécialistes, aux résidents, aux étudiants en médecine et au personnel des professions connexes de la santé, engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for general ophthalmologists, specialists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### Objectifs - Objectives

Présenter aux participants un aperçu des nouveaux développements chirurgicaux en matière de cornée, d'oculoplastie, de pathologie oculaire, de glaucome et de pédiatrie.

To provide the attendees an overview of new surgical developments in the areas of cornea, oculoplastics, ocular pathology, glaucoma and pediatrics.

# Imagerie du segment antérieur : Photographie de Scheimpflug

## Anterior Segment Imaging: Scheimpflug Photography

Jeudi 21 juin | 1030–1200 | Duluth  
Thursday, June 21

### **Groupes cibles - Target Audience**

---

Cette activité de formation s'adresse aux spécialistes du glaucome, aux sous-spécialistes de la cornée, des maladies externes et de la chirurgie réfractive, aux résidents, aux étudiants en médecine, et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for cornea/external disease and refractive surgery subspecialists, general ophthalmologists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### **Objectifs - Objectives**

---

- Connaître le concept de la photographie de Schleimflug et ses applications à la cornée, à la chirurgie réfractive et à celle de la cataracte
- Évaluer attentivement l'utilité du nouvel appareil d'imagerie comparativement aux appareils actuels.
- Obtenir des diagnostics et suggérer une façon de gérer une maladie complexe du segment antérieur à l'aide de la photographie de Schleimflug.
- To understand concepts of Schleimflug photography and its application in cornea, refractive and cataract surgery
- To critically assess value on a new imaging device in routine practice compared to present devices
- To provide diagnoses and suggest management of complex anterior segment conditions using Schleimflug photography

### **Panélistes - Panel Members**

# Controverses sur le traitement du strabisme

## Controversies in Strabismus Management

Jeudi 21 juin | 1030-1200 | Marquette/Jolliet  
Thursday, June 21

### Groupes cibles - Target Audience

Cette activité s'adresse aux ophtalmologistes pédiatriques et généralistes, aux résidents, aux étudiants en médecine, et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for pediatric and general ophthalmologists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### Guests - Invités

Edward G. Buckley, MD / Professor Heimo Steffen, MD

### Moderator - Animateur

G. Robert LaRoche

1030 | Welcome  
G. Robert LaRoche

#### Controversy #1

Inoperable strabismus cases  
Objective: To demonstrate the difficulties of management presented by certain strabismus conditions and to identify if some of them are NOT amenable to surgical treatment.

Method: The two presenters will discuss their experience with illustrative cases on how to make appropriate decision on these apparently hopeless strabismus cases where diplopia, fusion, or ocular motility seem so challenging.

1031 | **E.A. Baker Lecture:**  
I wish I had not done that  
**Edward G. Buckley**

1041 | Is there really hopeless cases  
**Heimo Steffen**

1051 | Discussion

#### Controversy #2

Objective: Three presenters will discuss the evidence for the best timing of surgery for infantile esotropia. However, this evidence can be disputed depending of its source. Clinical data, prospective studies and animal experimentations will be presented as supportive, sometimes conflicting, arguments.

1056 | How evidence-based is early surgery in congenital esotropia?  
**Heimo Steffen**

1106 | Discussion

1112 | The current North American standard of care  
**Edward G. Buckley**

1122 | Discussion

1127 | Animal experimental evidence  
**A.M. Wong**

1136 | Discussion

1141 | Rebuttal

# L'œil, le cerveau et la déficience visuelle

## The Eye, the Brain and Low Vision

Judi 21 juin  
Thursday, June 21

1030-1200

Saint-Charles/Saint-Maurice

### Groupes cibles - Target Audience

Cette activité de formation s'adresse aux ophtalmologistes généralistes et spécialistes, aux résidents, aux étudiants en médecine et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for general ophthalmologists, specialists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### Objectifs - Objectives

Comprendre la fonction visuelle et les troubles neuro-ophtalmiques. Comprendre la compensation neurale et les symptômes cliniques qui peuvent survenir lorsque le patient perd la fonction visuelle, en échangeant sur la neuroplasticité, les hallucinations visuelles chez les déficients visuels qui portent des prothèses pour la vue. L'on discutera aussi de la neuro-imagerie fonctionnelle, de la psychophysique, de la perte visuelle et des études des lésions pour traiter de la pertinence fonctionnelle de la réorganisation corticale compensatoire. Ce sont là des questions cruciales de plasticité pour comprendre l'adaptation à la cécité, le développement de nouveaux apprentissages de perception et la rééducation.

To understand visual function and neuro-ophthalmic disorders. To understand the neural compensation and clinical symptoms that can take place when patients lose visual function by discussing neuroplasticity, visual hallucinations in the visually impaired, and visual prostheses. We will discuss the use of functional neuroimaging, psychophysics, visual deprivation and lesion studies to address the functional relevance of compensatory cortical reorganization. Such issues of plasticity are critical in understanding the adaptation to blindness, the development of novel perceptual learning and rehabilitation.

## Épidémie de cécité Blindness Epidemic

Jeudi 21 juin | 1330-1500 | Duluth  
Thursday, June 21

### Groupes cibles - Target Audience

Cette séance s'adresse aux ophtalmologistes, aux résidents, aux étudiants en médecine et au personnel des professions connexes de la santé qui s'intéressent aux implications graves et fort étendues des grandes questions ophtalmologiques de notre temps en matière de santé publique au Canada.

This session is intended for ophthalmologists, residents, medical students and allied health personnel interested in the serious and wide reaching implications of the major public health ophthalmology issue of our time in Canada.

### Objectifs - Objectives

1. Sensibiliser les ophtalmologistes à l'ampleur et aux implications de l'épidémie croissante de la perte de la vision liée à l'âge et à la crise des soins oculaires au Canada.
  2. Esquisser des stratégies constructives pour prévenir une montée de la cécité, évitable au Canada.
  3. Passer en revue les développements dans l'élaboration d'une stratégie de santé visuelle au Canada.
1. To sensitize ophthalmologists to the magnitude and implications of the growing epidemic of age-related vision loss and the crisis in vision care in Canada.
  2. To outline constructive strategies to prevent a surge in avoidable blindness in Canada.
  3. To review the developments in building a vision health strategy for Canada.

## Controverse sur le glaucome Controversies in Glaucoma

Vendredi 22 juin | 0800-0930 | Marquette/Jolliet  
Friday, June 22

### Groupes cibles - Target Audience

---

Cette activité de formation s'adresse aux spécialistes du glaucome, aux ophtalmologistes généralistes, aux résidents, aux étudiants en médecine et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for glaucoma specialists, general ophthalmologists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### Objectifs - Objectives

---

1. Mieux comprendre le rôle de l'épaisseur du centre de la cornée dans le traitement du glaucome.
  2. Mieux comprendre le rôle de l'apoptose et de la neuroprotection dans la pathogénèse et les futures thérapies du glaucome.
  3. Mieux saisir le moment de traiter le glaucome ou d'en observer la tension normale.
  4. Se familiariser avec les nouvelles études sur les facteurs de risque de progression du glaucome à angle ouvert.
1. To better understand the role of central corneal thickness in the treatment of glaucoma
  2. To better understand the role of apoptosis and neuroprotection in the pathogenesis and future therapies of glaucoma
  3. To better understand when to treat or to observe in normal tension glaucoma
  4. To become familiar with newly explored risk factors for the progression of open angle glaucoma

#### **Participants - Target Audience**

Cette activité de formation s'adresse aux ophtalmologistes généralistes et spécialistes, aux résidents, aux étudiants en médecine et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for general ophthalmologists, specialists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

#### **Objectifs - Objectives**

Le COS-STC est un programme multimédia pratique concentré sur les progrès des techniques chirurgicales pour l'ophtalmologiste généraliste. Cette année, l'attention portera sur le traitement des complications des LIO, notamment la décentralisation, le repositionnement, le retrait de l'implant et les techniques de rechange.

The COS-STC is a multimedia, practical-based program focused on advances in surgical techniques for the general ophthalmologist. This year's focus is on management of IOL complications, including decentration, with repositioning or explantation/exchange techniques.

## Association canadienne des ophtalmologistes pédiatriques Canadian Association of Pediatric Ophthalmologists

### Groupes cibles - Target Audience

---

Cette activité s'adresse aux ophtalmologistes pédiatriques et généralistes, aux résidents, aux étudiants en médecine, et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for pediatric and general ophthalmologists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of pediatric and strabismic eye diseases.

### Objectifs - Objectives

---

- Les participants discerneront trois exemples de situations conflictuelles lors du traitement des patients en ophtalmologie pédiatrique, notamment l'implantation de lentilles oculaires, la chirurgie du strabisme paralytique et la formation des étudiants en chirurgie.
- Ils pourront identifier nettement les traitements spécifiques indiqués pour soigner l'aphakie chez les enfants.
- Ils pourront identifier nettement les traitements spécifiques indiqués pour soigner le strabisme chez les adultes, spécialement pour les problèmes postopératoires.
- Ils apprécieront les données accessibles sur les nouveaux modes de traitement en ophtalmologie pédiatrique et pour le strabisme.
- Participants will be able to identify at least three examples of conflicting patient management situations in pediatric ophthalmology, including intraocular lense implantation, paralytic strabismus surgery, and student surgical training
- Participants will be able to identify clear indications for specific aphakic treatment in children.
- Participants will be able to identify clear indications for specific strabismic treatment in adults, especially post-operative situations.
- Participants will appreciate the evidence available for new treatment modalities in pediatric ophthalmology and strabismus.

## La presbytie et la chirurgie réfractive de la cataracte Presbyopia & Refractive Cataract Surgery

(Organized by the Canadian Ophthalmological Society and the Canadian Cornea, External Disease & Refractive Surgery Society)

Jeudi 21 juin | 1330–1500 | Marquette/Jolliet  
Thursday, June 21

### Groupes cibles - Target Audience

Cette activité de formation s'adresse aux spécialistes du glaucome, aux surspécialistes de la cornée, des maladies externes et de la chirurgie réfractive, aux résidents, aux étudiants en médecine, et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for cornea/external disease and refractive surgery subspecialists, general ophthalmologists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### Objectifs - Objectives

Les participants entendront des exposés libres et des résumés portant sur un vaste secteur de la chirurgie de la cataracte.

This session will consist of free paper and abstract presentations encompassing a vast area of cataract surgery.

## Société canadienne du glaucome Canadian Glaucoma Society

### **Groupes cibles - Target Audience**

---

Cette activité de formation s'adresse aux spécialistes du glaucome, aux ophtalmologistes généralistes, aux résidents, aux étudiants en médecine, et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for glaucoma specialists, general ophthalmologists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### **Objectif - Objectivess**

---

1. Familiarisation avec les facteurs de risque primaires et secondaires de progression du glaucome dûs à l'hypertension oculaire
  2. Mise à jour de la connaissance des critères cliniques de la progression du glaucome
  3. Mise à jour des connaissances et des nouvelles thérapies concernant le glaucome pigmentaire, pseudoexfoliatif et néovasculaire
  4. Familiarisation avec les nouvelles thérapies chirurgicales du glaucome et leur rôle dans l'arsenal thérapeutique
- 
1. To become familiar with primary and secondary risk factors for progression to glaucoma in ocular hypertension
  2. To update knowledge on clinical criteria for progression of glaucoma
  3. To update clinical knowledge and new therapies for pigmentary, pseudoexfoliative and neovascular glaucoma
  4. To become familiar with new surgical therapies for glaucoma and their role in the therapeutic armamentarium

Bevacizumab (Avastin) is an approved treatment for colorectal and lung cancer. Any mention of this product within this program is an off-label use.

## Société canadienne de l'oculoplastie et de la chirurgie reconstructive Canadian Society of Oculo-plastic & Reconstructive Surgery

### Groupes cibles -Target Audience

Cette activité de formation s'adresse aux chirurgiens en oculoplastie, aux ophtalmologistes généralistes, aux résidents, aux étudiants en médecine, et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for oculo-plastic surgeons, general ophthalmologists, residents, medical students and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

### Objectifs - Objectives

Offrir un échange libre sur l'oculoplastie et la chirurgie réfractive par une discussion après chaque exposé.

This interactive session will consist of free communications in oculo-plastic and reconstructive surgery with discussion time following each presentation.

# Société canadienne des infirmières et infirmiers en ophtalmologie Canadian Society of Ophthalmic Registered Nurses

Saturday, June 23  
Samedi 23 juin

0800-1600

Saint-Charles/Saint-Maurice

## Participants - Target Audience

Cette activité de formation s'adresse aux personnel infirmier en ophtalmologie, aux étudiants en médecine et au personnel des professions connexes de la santé engagés dans le diagnostic et le traitement des maladies oculaires.

This educational activity is intended for ophthalmic nurses, medical students, and allied health personnel who are engaged in the diagnosis and treatment of eye diseases.

## Objectifs - Objectives

Ce forum permettra le partage de connaissances reliées à la pratique du nursing en ophtalmologie. De nouvelles façons de traiter certaines maladies de l'œil seront présentées. Les infirmières en ophtalmologie pourront ainsi parfaire leurs connaissances sur un nombre varié de sujets qui ont trait à leur champ d'activités en milieu chirurgical et/ou clinique.

As a forum for nurses this session will enable sharing of issues relevant to nursing practice in an ophthalmology setting. Participants will learn new trends in treatments for certain eye diseases and interesting case-studies will be presented. Ophthalmic nurses will gain new information about a broad number of topics affecting their daily work in both clinical and surgical settings.

## Financial disclosure - Divulgence des intérêts financiers

The Canadian Ophthalmological Society requires that each presenter in this accredited educational activity disclose the existence of any financial interest and /or other relationship(s) that would potentially affect the objectivity of the presentation. Speakers are also asked to make a disclosure that a product is still investigational when an unlabeled use of a commercial product or an investigational use not yet approved for any purpose is discussed during an educational activity. The disclosed information in no way presumes to assess the participant's qualifications or suitability. The intention is to provide full disclosure of any potential conflict of interest, real or perceived.

## Exposition et renseignements généraux Exhibition and General Information

## Exposition - Exhibition

Joignez-vous aux exposants dans les « Rues de Montréal ». Vous vous sentirez transportés hors de l'hôtel dans les rues vibrantes de cette ville aux visages variés et excitants. Les sociétés exposantes des salles Hochelaga vous surprendront en vous faisant visiter divers sites de Montréal où vous trouverez les derniers produits et services disponibles.

En rencontrant les exposants dans Le Grand Salon vous aurez l'impression de déambuler dans les parcs de la ville et leurs environs pendant les 2 jours et demi de l'exposition.

Les pauses et les repas se dérouleront dans la salle d'exposition du jeudi au samedi. Insigne requis pour y être admis.

---

Join the exhibitors on the 'Streets of Montréal' where you will be transported from inside the hotel, outside to the vibrant streets of this diverse and exciting city. Exhibiting companies in the Hochelaga rooms will surprise you with visits to various sites in Montréal where you can view their latest products and services.

You can also meet with exhibitors in Le Grand Salon while strolling through local parks and neighbourhoods during the 2-1/2 days of exhibits.

All breaks and lunches will be served in the Exhibit Hall Thursday through Saturday. COS badges are required for admission.

### ***L'horaire - Viewing Schedule***

---

**Judi 21 juin - Thursday, June 21**

0900-1700

Réception d'accueil - Welcome Reception

1700-1830

---

**Vendredi 22 juin - Friday, June 22**

0900-1700

---

**Samedi 23 juin - Saturday, June 23**

0900-1330

La tenue du congrès annuel ne serait pas possible sans l'appui des compagnies exposantes.

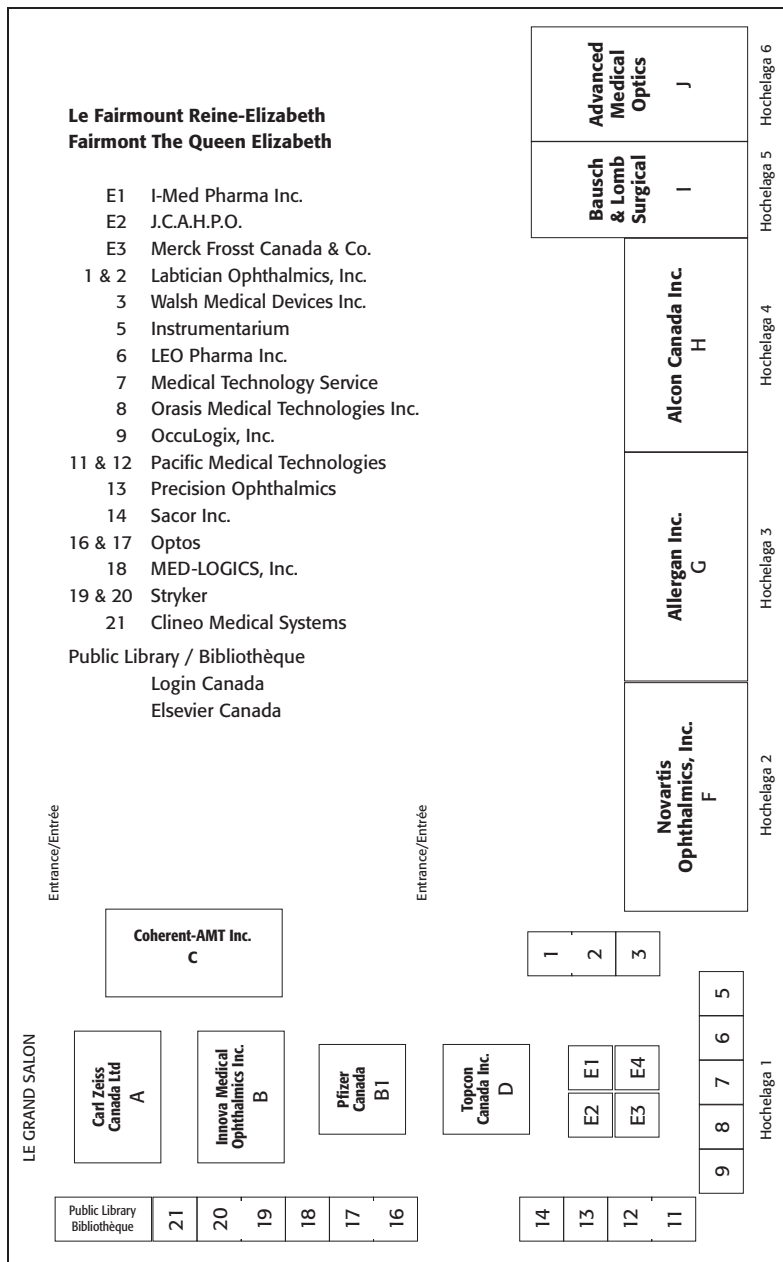

***Sachez les remercier en visitant l'exposition.***

---

This educational meeting would not be possible without the generous support of our exhibitors.

***Please take time to visit each exhibiting company.***

# Salle d'exposition - Exhibit Hall

## Alcon Canada - Hochelaga 4

Rejoignez-vous à nous au kiosque d'Alcon Canada, dans la magnifique ville de Montréal. Alcon vous y présentera ses derniers progrès technologiques pour le traitement des maladies et pathologies oculaires. Il soulignera les interventions chirurgicales et pharmaceutiques de même que les dernières données cliniques publiées. Venez participer au forum de formation et rencontrer vos collègues et le personnel d'Alcon. Il nous fera plaisir de vous renseigner sur tous nos produits. Au plaisir de vous y accueillir.

Join us at the Alcon Canada booth, in the beautiful city of Montréal, where Alcon will be highlighting the latest technological advances in the treatment of ocular conditions and pathology. Alcon will highlight both surgical and pharmaceutical interventions as well as the latest published clinical data. Please join us in this Alcon educational forum and mingle with your peers and Alcon staff. We will be happy to answer any questions you may have on any related products. We will see you there!

## Bausch & Lomb Canada - Hochelaga 5

En juin, à Montréal, rejoignez-nous au Café Bausch & Lomb où vous découvrirez les innovations technologiques qui vous aideront à Parfaire la vision et Améliorer la vie.

This June in Montréal join us at the Bausch & Lomb Café where you can discover the technological innovations that help you to Perfect Vision and Enhance Life.

### Chirurgie oculaire

Découvrez les nouvelles technologies permettant la phacoémulsification sûre et efficace et la chirurgie par micro-incision pour des millions de patients dans le monde entier. Le système de microchirurgie MillenniumMD combiné avec le système TSV25 soutient à la fois votre technique et l'efficacité en général. Ses progrès permettent de rationaliser vos procédures vitréorétiniennes. Bausch & Lomb dispose aussi de chirurgiens avec outils et techniques pour corriger avec précision et efficacité une vaste gamme d'erreurs réfractives.

### Ophthalmic Surgery

Discover the technological innovations that enable safe, cost-effective

phacoemulsification and microincision surgery for millions of patients worldwide. The Millennium™ Microsurgical System in combination with the TSV25 System supports both your technique and overall efficiency with advanced technology that streamlines your vitreoretinal procedures. Bausch & Lomb also provides surgeons with the tools and technology to accurately and effectively correct a full range of refractive errors.

### Produits pharmaceutiques

Chef de file dans la recherche nutritionnelle oculaire et les suppléments de vitamines pour l'œil, Bausch & Lomb s'est engagée à vous aider à protéger et à maintenir la santé oculaire de vos patients. Les formules PreserVision® AREDS® et Lutein se fondent sur l'étude révolutionnaire NEI AREDS®.

### Pharmaceuticals

As the leader in ocular nutritional research and vitamin supplements for the eye, Bausch & Lomb is committed to helping you protect and maintain the health of your patients' eyes. The PreserVision® AREDS® and Lutein formulas are both based on the groundbreaking NEI AREDS® study.

### Allergan Inc. - Hochelaga 3

Allergan vous invite à venir souligner l'excellence de Montréal dans les sports. Venez voir nos produits et services ophtalmologiques les plus récents, dans

une ambiance sportive soulignant la riche histoire de Montréal au hockey, au baseball, au football et dans les sports motorisés. Dans un jeu-questionnaire, sondez votre

connaissance sur le sport à Montréal. Consultez notre liste d'invités spéciaux qui évoqueront le souvenir de vos joueurs et équipes préférés d'antan.

Allergan invites you to join us for a tribute to Montréal sporting excellence. Visit us to see the latest in our line-up of ophthalmic products and services, in a sporty atmosphere honouring Montréal's rich history in hockey, baseball, and football. Test your knowledge of Montréal

sporting trivia and checkout our schedule of special guest appearances who will evoke

memories of some of your favourite players and teams of yesteryear.

### Produits ophtalmiques Novartis - Hochelaga 2

Mesdames et Messieurs, démarrez vos moteurs. Les produits ophtalmiques Novartis F1, l'équipe de la Formule de la réussite, roule cette année sur Montréal vers le congrès annuel de la SCO avec divers produits pour soins oculaires.

Joignez-vous à nous dans le cercle des vainqueurs pour vous renseigner et en apprendre davantage sur Visudyne, Vitalux, GenTeal et Zaditor, ainsi que sur le traitement de la dégénérescence maculaire, l'allergie oculaire et l'œil sec.

Venez sur le podium tester vos talents de conduite avec les vainqueurs et vous entretenir avec les pilotes des produits ophtalmiques Novartis et l'équipe du ravitaillement.

Ladies and gentlemen, start your engines. The Novartis Ophthalmics F1:

Formula for Success team drives into this year's COS annual meeting in Montréal featuring a variety of its eye care products.

Please plan to join us in the winners circle to get information and learn

more about Visudyne, Vitalux, GenTeal and Zaditor and treatments for macular degeneration, ocular allergy and dry eye.

You are invited to be part of the action in victory lane where you can test your racing skills and talk to the Novartis Ophthalmics drivers and pit crew about our products and services.

## Renseignements généraux - General Information

### L'inscription - Registration

À titre d'avantage particulier, l'inscription est gratuite pour les membres de la Société canadienne. Elle comprend l'assistance aux activités scientifiques et la visite de l'exposition.

Seuls les ophtalmologistes, les scientifiques de la vision, les exposants inscrits et les membres des professions connexes de la santé peuvent s'inscrire et participer au congrès annuel.

As a benefit of membership, there is no registration fee for members of the Canadian Ophthalmological Society. Registration includes admittance to the scientific sessions and exhibition.

Only ophthalmologists, vision scientists, registered exhibitors, and allied health professionals may register and attend the annual meeting.

### Frais d'inscription

Membres de la SCO	sans frais
Membres perpétuels de la SCO à retraite	70 \$
Étudiants canadiens en médecine (attestation requise)	sans frais
Scientifiques de la vision, chercheurs, omnipraticiens (attestation requise)	215 \$
Non-membres (autres catégories)	625 \$
Gratuit pour les résidents (membres juniors)	
Professions connexes de la santé SCPMO, CSIIO, LSCO	
Membre	140 \$
Non-membre	200 \$
Étudiant(e) SCPMO, LSCO	70 \$
Administrateurs de la Banque d'yeux	70 \$

### **Veillez vous inscrire à eyesite.ca.**

Les participants, y compris les présentateurs, doivent tous s'inscrire pour accéder aux assises. **Date butoir de la pré-inscription, le 20 mai 2007.** Frais de 100 \$ pour les inscriptions tardives.

### Registration Fees

COS Member	N/C
COS Member – retired	\$ 70
Canadian Medical Student (must include proof of status)	N/C
Basic Scientist/Vision Researcher (proof is required)	\$215
Non-Member (All other categories)	\$625
Canadian Residents (Junior Members) are FREE	
Allied Health Professionals CSOMP, CSORN, TCOS	
Member	\$140
Non-member	\$200
Student (CSOMP/TCOS)	\$70
Eye Bank Administrator	\$70

### **Register at eyesite.ca.**

All participants must register for the meeting to be allowed access (including all presenters).

### **Deadline for pre-registration is May 20, 2007.**

A late fee of \$100 will be applied after that date.

### ***Le perfectionnement professionnel continu Continuing Professional Development***

#### **Le maintien du certificat :**

Cette activité en est une de formation de groupe agréée en vertu de la Section 1 telle que définie par le Collège royal des médecins et chirurgiens du Canada pour le programme de maintien du certificat.

#### **Maintenance of Certification:**

This event is an accredited group learning activity under Section 1, as defined by the Royal College of Physicians and Surgeons of Canada for the Maintenance of Certification Program.

**Les programmes de formation offerts par les professions connexes de la santé** peuvent comporter des crédits de la Joint Commission on Allied Health Personnel in Ophthalmology. Veuillez vous renseigner auprès des organisations concernées.

**Programs offered by the allied health professional societies** may be eligible for credits from the Joint Commission on Allied Health Personnel in Ophthalmology. Please contact the sponsoring organization for further information.

---

### ***Heures d'ouverture du comptoir d'inscription Registration Desk Hours***

0730-1700	Mercredi 20 juin au samedi 23 juin
Mezzanine Level	Wednesday, June 20 though Saturday June 23

---

### ***Annulations et remboursements - Cancellation/Refund Policy***

Aucun remboursement  
No refunds allowed

---

### ***Insignes et sécurité - Badges/Security***

Les congressistes inscrits doivent porter leurs insignes, qui sont absolument personnels, pour être admis aux activités. On ne doit ni les modifier, ni les rendre illisibles ni les masquer par une carte d'affaires, une épinglette ou un autocollant. Les insignes perdus sont remplaçables au comptoir d'inscription.

All registered delegates must wear their badges to gain admission to conference activities. Badges are not transferable under any circumstances. They must not be altered or defaced and must not be concealed by business cards, pins or stickers. Lost badges can be replaced at the Registration Desk.

### **Le centre des messages - Message Centre**

Un centre de messages sera situé au comptoir d'inscription. Il faut y porter soi-même les messages.

A message board will be set up at the Registration Desk. Messages must be left in person.

---

### **La salle de visionnage des conférenciers - Yamaska Speakers' Viewing room - Yamaska room**

**Les présentateurs DOIVENT vérifier auprès du technicien au moins 30 minutes avant leur exposé. Aucune présentation ne sera acceptée après le début de la séance.**

Les conférenciers trouveront à la salle de visionnage l'aide audiovisuelle dont ils ont besoin. Un technicien se tiendra à votre disposition pour vous aider à modifier votre présentation au besoin et l'on veillera à monter celle-ci dans l'ordinateur approprié de votre atelier. Les présentateurs doivent remettre leur exposé à l'avance pour assurer le bon déroulement de l'atelier. Les documents seront conservés confidentiellement et retirés dès l'atelier terminé. Les présentateurs recevront plus d'information par la poste, mais pourront aussi la trouver dans le site Web : eyesite.ca.

**All presenters MUST check in with the technicians a minimum of 30 minutes prior to the start of their session. No presentations can be accepted once the session has started.**

The Speakers' Viewing room is your resource for assistance with all your audiovisual needs. A technician will be available to assist you with any modifications necessary to your presentation. The technician will ensure your presentation is loaded onto the proper computer in your meeting room. All presenters must submit their presentation in advance. We cannot guarantee your talk will be presented if not received prior to the meeting. All presentations will be kept confidential and removed immediately from all computers at the conclusion of the meeting. Additional information will be sent to all presenters, or visit the COS website at eyesite.ca.

### **Heures d'ouverture - Hours of operation**

0700-1700

Mecredi 20 juin au samedi 23 juin

Wednesday, June 20 though Saturday June 23

## **Les activités sociales - Social Events**

### **Jogging matinal / Fun Run**

Jeudi 21 juin / Thursday, June 21 • 0630  
Foyer, Fairmont The Queen Elizabeth Hotel

Le Jogging des lève-tôt s'adresse aux débutants et aux coureurs expérimentés. Tous recevront un t-shirt et un bon petit-déjeuner.

The 5k run is open to both beginners and experienced runners. At the completion of the run, all runners will receive a healthy breakfast and t-shirt.

---

### **Réception d'accueil - Welcome Reception**

Jeudi 21 juin / Thursday, June 21 • 1700-1830  
Salle d'exposition / Exhibit Hall (Le Grand Salon, Hochelaga 1 through 6)

La réception d'accueil offre un excellent moyen de lancer un congrès vers la réussite. Profitez de ce moment de détente pour renouer de vieilles amitiés ou en contracter de nouvelles dans tout le pays. L'invitation s'adresse à tous les congressistes et à leurs familles. Port de l'insigne. Prière d'indiquer le nombre de personnes.

Join us on the Streets of Montréal to enjoy street entertainers, light cocktails and canapés while renewing old and making new friendships with colleagues from across Canada. All delegates and their families are invited to attend if pre-registered (badges are required). Please RSVP on the registration form.

---
