

# The Battle with Cataract In The Developing World

## La lutte contre la cataracte dans le monde en voie de développement

Wednesday, June 21 | 1500-1700 | Harbour A  
 Mercredi 21 juin

### Objectives - Objectifs

To review important innovations in cataract surgery including manual sutureless cataract surgery, approaches to teaching cataract surgery, inexpensive high-quality sutures and IOLs, and approaches to breaking down patient barriers to cataract surgery.

Revoir les innovations importantes en chirurgie de la cataracte, notamment la chirurgie manuelle sans suture, les approches de l'enseignement de la chirurgie de la cataracte, les sutures et les LIO peu dispendieuses et de grande qualité, et les façons de réduire les obstacles à la chirurgie chez les patients.

### Moderator - Animateur

Ralf Buhmann
