---

Allergan, Inc. is a multi-specialty health care company focused on discovering, developing and commercializing innovative pharmaceuticals, biologics and medical devices that enable people to live life to its greatest potential – to see more clearly, move more freely, express themselves more fully.

Built upon a nearly 60-year heritage with expertise in discovering and developing therapeutic agents to help protect and preserve vision, Allergan is a global leader in eye care and the treatment of eye conditions including glaucoma, dry eye and external eye diseases.

A few of our flagship products include: Refresh® Brand Products, Alphagan®, Combigan™, Lumigan®, Acular LS®, Zymar® and Pred Forte®.

---

## Bausch & Lomb Canada Inc.

520 Applewood Crescent,  
Vaughan, ON L4K 4B4  
Tel.: 905.695.7700  
Fax: 905.695.7658  
Contact: Mr. Christopher Thatcher, VP & General Manager  
Website: www.bausch.ca

---

Bausch & Lomb is the eye health company dedicated to perfecting vision and enhancing life.

We offer the world's most comprehensive portfolio of eye health products.

We began in 1853 in Rochester, New York, as a small optical shop that grew to become a multi-billion dollar corporation with nearly 14,000 employees worldwide, and with products available in more than 100 countries.

At Bausch & Lomb, our history of innovation continues today as we invent new materials, engineer new technologies, and create pioneering ways to help people see better.

We market five broad categories of products in Canada:

### **Cataract and Vitreoretinal Surgery:**

We offer a full suite of products including intraocular lenses and delivery systems featuring the Stellaris™ Micro Incision Cataract Surgery platform.

**Refractive Surgery:** Our products for refractive laser surgery include the Zyoptix® system for personalized vision correction (customized LASIK) and the Zyoptix XP and Hansatome® brands of microkeratomes.

**Pharmaceuticals:** Our products treat a wide range of eye conditions including glaucoma, eye allergies, conjunctivitis, dry eye and retinal diseases. We offer proprietary and generic medicines available by prescription, over-the-counter eye drops and other medications

**Contact Lenses:** Our offerings span the entire spectrum of wearing modalities and include such well-known brand names as PureVision®, SofLens®, Boston® and Optima®.

**Lens Care:** Our lens care products include the ReNu® brand of chemical disinfectants as well as the Sensitive Eyes® and the Boston® lines of products for cleaning contact lenses.

## Medicaid

One Bentall Centre  
1550 – 505 Burrard St.  
Box 97  
Vancouver, BC V7X 1M5  
Tel: 1-888-689-9876  
Fax: 1-888-689-9862  
Contact: Lori Johnson, Director of Marketing  
Email: [Ljohnson@medicaid.com](mailto:Ljohnson@medicaid.com)  
Website: [www.medicaid.com](http://www.medicaid.com)

---

Since 1996, Medicaid has been providing financing for ophthalmologic procedures enabling patients to afford the very best. It is a simple and affordable way to finance a procedure, either surgical or non-surgical.

Medicaid's loan program is simple, fast and convenient. Patients may apply online, via fax, or even over the phone. Most applications are quickly approved – in fact financing can be approved while the patient is in your office! A portion of the procedure may be financed or the entire amount of treatment, and with our low interest rates and flexible terms, there is no uncertainty, only convenience. Medicaid's professional and experienced staff is committed to helping patients obtain financing for the procedures they want.

So go ahead...tell them they can afford it!

Merck Frosst Canada Ltd. is a research-driven pharmaceutical company discovering, developing and marketing a broad range of innovative medicines and vaccines to improve human health. The Merck Frosst Centre for Therapeutic Research, one of the largest biomedical research facilities in Canada, has the mandate to discover new therapies for the treatment of respiratory diseases, inflammatory diseases, diabetes, osteoporosis and hypertension. Merck Frosst is one of the top 25 R&D investors in Canada, with an investment of close to \$110 million in 2007.

Merck Frosst is a recognized leader in the treatment of asthma, diabetes, osteoporosis, HIV/AIDS, glaucoma, prostate disease, migraine and infectious diseases. The Company also markets an extensive line of cardiovascular products for high blood pressure, elevated cholesterol and heart failure as well as a broad range of vaccines. Based in Montréal, Quebec, Merck Frosst employs more than 1,400 people including 300 of the world's leading scientific personnel. More information about Merck Frosst is available at <http://www.merckfrosst.com>.

## Medical Technology Service Providers Inc.

155 East Beaver Creek Road, Unit 10  
Richmond Hill, ON L4B 2N1  
Tel: 905-763-9477, 877-763-9477  
Fax: 905-763-8503  
Contact: David Boldovitch  
E-Mail: info@mtsp.ca  
Website: www.mtsp.ca

Medical Technology Service Providers Inc. was established five years ago, and is Canadian owned and operated. Our business model addresses many current concerns in today's medical community (mainly the expense of purchasing instruments, and the convenience of offering diagnostic testing).

Essentially, we make available up-to-date technology to aid in the diagnosis, management and treatment of glaucoma and other retinal problems. MTSP addresses these concerns by making the HRT#, OCT and therapeutic lasers portable and accessible.

Today, our company works with approximately 170 ophthalmologists and our experienced technicians have performed more than 90,000 patient exams. This formula has proved to be an extremely successful one, and we have recently begun services in British Columbia and Quebec. We are currently in discussions with doctors in other provinces and are in the process of acquiring other medical equipment.

## Optos

67 Forest Street  
Marlborough, MA 01752 USA  
Tel: 508-787-1490 / 877-455-8855 x1490  
Customer Support: 800-854-3039  
Fax: 508-787-1445  
Contact: Robin Assencoa, Sr. Meetings & Events Specialist  
Email: RAssencoa@optos.com  
Web: www.optos.com

---

Optos' technology platforms provide ultra-widefield scans (approximately 200 degrees) of the fundus through the use of its patented Virtual Point™ technology. Using multiple low-powered coherent laser wavelengths, the Virtual scan point is placed within the eye behind the iris plane producing panoramic retinal images.

With three devices now available, Optos has a retinal-imaging platform that is right for every ophthalmology practice. The P200 is the established standard for primary eye care and wellness evaluations. The P200C is designed to meet the need for more exacting clinical imaging capabilities and combines ultra-high resolution in addition to ultra-widefield retinal imaging. The P200MA provides ultra-widefield fluorescein angiography in addition to ultra-widefield fundus photography procedures.

Visit the Optos booth to see an image of your own eye and to determine which Optos platform is right for your practice.

## **Pacific Medical Technologies Inc.**

#1 – 1520 Cliveden Avenue,  
Delta, BC, V3M 6J8

---

Sigmacon is the exclusive Canadian distributor of the AMO® iLASIK™ product suite, including VISX™, IntraLase® and WaveScan™ technologies. The iLASIK solution is an integrated platform, yielding clinical benefits at every step.

### WaveScan™ Technology

WaveScan technology captures unique imperfections in each individual's eye that could not have been measured before using standard methods for glasses and contact lens.

### IntraLase™ Technology

IntraLase technology gives you the capability to precision-design your patient's intracorneal architecture in terms of diameter, depth, edge angle and morphology - creating the optimal stromal bed for the refractive procedure.

### VISX™ Technology

The VISX STAR platform's heritage of dependability and performance is well known. Our latest excimer laser system represents the most advanced laser technology platform available today. Integrating data collected by the WaveScan WaveFront System, the STAR S4 IR utilizes these exclusive VISX technologies to deliver precision custom ablations.

E-Mail: [nicole.daponte@stryker.com](mailto:nicole.daponte@stryker.com)  
Website: [www.stryker.com](http://www.stryker.com)

---

Stryker brings uniquely Canadian solutions to the Canadian market. We collaborate with surgeons and health care providers to expedite new technologies for the benefit of Canadian patients. Some of this work can be seen in our hospital and long-term care beds that are created and manufactured in one of the fastest growing, locally based health care production facilities in L'Islet, Quebec. We are also a world-class leader in telehealth technology, improving the availability of surgical care to Canadians living in remote geographical locations, who might otherwise not have access to the required medical care.

We bring the best technology into Canada, where we combine it with local talent and expertise with the goal to consistently exceed our customers' expectations.

---

Valeo Pharma provides classic and innovative brands. Its portfolio in the dermatology category contains OTC and prescription brands such as Hydrosal® (Antiperspirant for excessive sweating), Aristocort® (Anti-inflammatory) and Clinda-T® (Acne vulgaris). Valeo is also involved in other fields of interest with products such as Cophylac® (Narcotic Antitussive), Probiostat® Vaginal (to restore vaginal flora) and Aristospan® (Injectable Glucocorticoid).

Since its creation in 2003, Valeo Pharma successfully acquired or licensed a variety of niche brands while maintaining the high-quality level of distribution and service. Valeo is also the Canadian distributor for US company Aton Pharma with the following products: Lacrisert® (Ophthalmic Insert), Cuprimine® (Chelating Agent), Edecrin® and Sodium Edecrin® (Diuretic—Saluretic).

Valeo Pharma continues to aggressively seek other opportunities with Canadian and International pharmaceutical companies.
