

Canadian Society of Oculoplastic & Reconstructive Surgery

Société canadienne de l'oculoplastie et de la chirurgie reconstructive

Objectives - Objectifs

Participants can increase

- knowledge of the management of selected oculoplastic emergency problems that may present in emergency situations
- knowledge of new approaches to addressing common oculoplastic problems
- knowledge of new management and therapy concepts of oculoplastic disease and surgery

Les participants pourront accroître :

- la connaissance de la gestion d'un certain nombre de problèmes oculoplastiques qui peuvent survenir en situation d'urgence,
- la connaissance de nouvelles approches pour aborder des problèmes communs en oculoplastie,
- la connaissance de nouvelles notions de gestion et de thérapie pour les maladies et la chirurgie oculoplastique.

Oculoplastic trauma for the general ophthalmologist

Le traumatisme oculoplastique pour l'ophtalmologiste généraliste

Thursday, June 12 | 1030–1200 | Empress A/B
Jeudi 12 juin

Moderator - Animateur

Vincent Tony Wong

1030	Introduction
1035	Lid laceration V.T. Wong
1043	Discussion
1049	Canalicular lacerations D.D. DeAngelis
1057	Discussion
1103	Current concept on orbital blow-out fracture P. Dolman
1111	Discussion
1117	Loss of vision associated with orbital hemorrhage V. Kratky
1125	Discussion
1131	Penetrating orbital foreign body injuries B.P. Arthurs
1139	Discussion
1145	Traumatic optic neuropathy - management controversies Y. Molgat
1153	Discussion
