

General / Refracting Ophthalmologist

Looking to slow it down a notch or semi-retire? The Sunshine Coast, BC has a place for you.

Stunningly beautiful and picturesque, our seaside community is located on the mainland and accessed by a 40 minute one way fare, ferry sailing across the Strait of Georgia in the Salish Sea, or a direct 20 minute float plane flight to downtown Vancouver, Vancouver Airport, or Nanaimo.

A vibrant growing community with new residents moving from all over Canada and the world, the Sunshine Coast offers an excellent quality of life, an outdoor playground for a multitude of interests, in a culturally rich, safe and eclectic community, with great schools, medical care and a local hospital.

InSightful Visions is independently owned by Licensed Optician/Contact Lens Fitter, Susan Ferron. We have previously contracted independent Optometrists to provide patient services over the last 10 years and have a dedicated growing clientele and patient base.

We are offering 2 - 3 days a week with a flexible schedule for you to see patients for primary care and refractions in our warm and welcoming spacious 3200 sq ft office, designed with coastal ambiance, in a relaxed professional environment in Sechelt.

Our newly re-designed exam suite is streamlined and equipped with a Nidek RT-5100 digital phoropter along with a Haig Strait 900 series slit lamp with a Goldman tonometer, with a fully powered Reliance chair. Separate pretest areas include, wave-front aberrometry, and corneal topography, visual fields, retinal and meibomian gland imagery, with room for an OCT and a secondary lane.

Our small and dedicated team are excellent, well trained and knowledgeable in providing preliminary and extended testing and EMR billings.

Your services would be welcomed and supported by our great rapport with the Coast's 2-physician surgical ophthalmology practice and the other primary care physicians and complementary, integrative and alternative medicine practitioners utilized by our local demographic, who refer to us.

We are looking for a Doctor who would like to join us in providing quality patient care. If you see yourself in this modality of practice, I would like to hear from you via email.
