

**Queen's University, School of Medicine, Kingston Health Sciences Centre Department of Ophthalmology
Kingston, Ontario, Canada**

Clinician Scientist / Comprehensive General Ophthalmologist

Applications are invited for the position of Clinician Scientist in the Queen's University Department of Ophthalmology. Candidates must be eligible for licensure with the College of Physicians and Surgeons of Ontario. Candidates must have a proven background in performing clinical and/or basic science research.

The Clinician-Scientist will play a vital role in the ophthalmology department in performing thematic translational research. The incumbent will conduct collaborative and independent investigation using clinical observations and laboratory discoveries to further our understanding of the optimal recognition and treatment of eye disease.

Preference will be given to those candidates who hold Royal College of Physicians and Surgeons of Canada certification in Ophthalmology and have a demonstrated ability to conduct research as evidenced by peer reviewed publications and successful grant applications. The incumbent should have a clear thematic focus to his/her research.

The incumbent will be involved in a teaching program in Ophthalmology and must have a proven record of excellence in teaching within an academic environment with an aptitude for innovative teaching. Evidence of an ability to work in an interdisciplinary, collaborative environment is essential.

To comply with Federal laws, the University is obliged to gather statistical information about how many applicants for each job vacancy are Canadian citizens/permanent residents of Canada. Applicants need not identify their country of origin or citizenship, however, all applications must include one of the following statements: I am a Canadian citizen/permanent resident of Canada; OR, I am not a Canadian citizen/permanent resident of Canada. Applications that do not include this information will be deemed incomplete.

A complete application which consists of: a cover letter, (including one of the two statements regarding Canadian citizenship/permanent resident status specified in the previous paragraph), curriculum vitae and names and contact information of three referees, should be directed to: Dr. Martin ten Hove, Department Head, Department of Ophthalmology, Queen's University, Kingston Health Sciences Centre, 166 Brock Street, Kingston, Ontario, Canada K7L 5G2. Review of applications will commence January 13, 2020, and continue until the position is filled.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during the interview process, please contact Amanda McIntosh at a.mcintosh@queensu.ca.

The University invites applications from all qualified individuals. Queen's is committed to employment equity and diversity in the workplace and welcomes applications from women, visible minorities, Aboriginal peoples, persons with disabilities, and LGBTQ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority.
