ADRIAN LH. LONG  
O P H T H A L M O L O G Y

<b>POSITION</b>	Ophthalmologist (Cataract Surgeon)
<b>DURATION</b>	Permanent
<b>LOCATION</b>	Winnipeg, Manitoba
<b>SALARY</b>	Commensurate with experience + Potential ownership in the practice

**ABOUT US.**

Dr. Long has run a solo, private practice in Canada since 1974. We have a strong patient base of general ophthalmology but do specialize in long-term glaucoma management and treatment. We have a dedicated dry eye clinic providing **Lipiview** tearfilm and meibography scanning, **Lipiflow Thermal Pulsation Treatment** as well as retail dry eye solutions. Our patient base provides a turn-key opportunity for any cataract surgeon looking to start or grow their practice. The clinic specializes in diagnostics and testing for glaucoma, cataracts, diabetes, and macular degeneration. These include HRT, OCT, Optomap, AC Scan and visual field testing. We provide SLT, YAG, and Iridotomy laser treatments to our patients. Our technicians are certified Ophthalmic Technicians through NAIT and are fully trained in all aspects of pre-testing, scanning, and performing examinations.

**ABOUT YOU.**

Candidates must be certified (or eligible for certification) by the Royal College of Physicians & Surgeons of Canada and eligible for license in Manitoba. Surgeons must be able to attain surgical privileges at hospitals within the Winnipeg Regional Health Authority. The ideal candidate will possess excellent clinical and surgical skills with a focus on successful outcomes, sound clinical judgement, ethical decision-making, strong interpersonal and communication skills, and motivation to contribute to the growth of our practice.

**ABOUT THE OPPORTUNITY.**

You will conduct comprehensive eye examinations to diagnose and treat various eye conditions and diseases. You will provide prescriptions and manage medications for eye-related conditions, and pre-operative/post-operative care to patients. In the clinic you will collaborate with other healthcare professionals to ensure the right care is provided.

The clinic space also allows for retail optometry and contact lens sales although does not currently have an optical in house. There is also an area for minor medical procedures and medical aesthetics.

This practice provides an excellent opportunity for an ophthalmologist who is ready to step into a turn-key operation and can provide the right leadership to the practice, client-base, and the traditions that Dr. Adrian Long's practice represents. The position includes competitive compensation with the goal of ownership in the practice.
