Comprehensive Ophthalmologist / Cataract and Refractive Surgeon

Locum start, with a path to associate and equity partner

Conlon Eye Institute, Saskatoon, Saskatchewan, Canada

Conlon Eye Institute (CEI) invites applications from comprehensive ophthalmologists with a focus on cataract and refractive surgery. The role may begin as a locum, with a defined path to associate and then equity partner. The start date is flexible. Call is shared, and CEI helps with SHA hospital privileges in Saskatoon.

This is a long-term career opportunity with immediate access to an established patient base, significant surgical volume, mentorship, and a clearly defined pathway from locum to associate to equity partner.

The role includes

- Standard cataract surgery at Prairieview Surgical Centre (Saskatoon Health Authority)
- Refractive cataract surgery with premium lenses, only in CEI's accredited surgical suite
- LASIK and AdvancedSurf Laser (PRK), with mentorship available
- Medical ophthalmology: glaucoma, cornea, ocular surface, dry eye, and medical retina

Licensure and immigration support

Conlon Eye Institute will sponsor and supervise eligible internationally trained ophthalmologists in line with the requirements of the College of Physicians and Surgeons of Saskatchewan (CPSS). Clinical supervision is one of the College's requirements on the path to licensure, and our physicians provide it on site. We support each candidate through the full licensing process, from assessment and provisional licensure through to a regular licence, and we also help with the immigration process. **Eligible ophthalmologists trained in the United Kingdom and Ireland may qualify for a streamlined approved jurisdiction route.**

Applicants should be eligible for licensure with the College of Physicians and Surgeons of Saskatchewan. Internationally trained ophthalmologists are encouraged to apply. There is no blanket requirement for Royal College certification.

Compensation is competitive and depends on licensure and certification stage. Details are discussed with shortlisted candidates.

How to apply

Please send your CV and cover letter to hr@conloneyeinstitute.com.
