Locum Comprehensive Ophthalmologist

Partnership Track Opportunity | Conlon Eye Institute

Saskatoon, Saskatchewan, Canada

Conlon Eye Institute (CEI) is seeking an ambitious and highly motivated Comprehensive Ophthalmologist to join our expanding team in Saskatoon, Saskatchewan. This exceptional locum-to-partnership opportunity is ideal for experienced ophthalmologists or recent residency graduates seeking advanced surgical exposure, mentorship, career stability, and long-term practice ownership potential.

This position represents an outstanding opportunity for a new graduate to transition confidently into independent practice within a high-volume, well-supported clinical and surgical environment. CEI offers hands-on mentorship, exposure to advanced cataract, refractive, and oculoplastic procedures, and the ability to develop surgical skills while building a strong referral base and long-term career in Saskatchewan.

Why Join Conlon Eye Institute?

Established High-Volume Surgical Practice

Join one of Saskatchewan's leading ophthalmic surgical practices with:

- Strong referral relationships
- Established surgical volumes
- Large and growing patient base
- Advanced diagnostic and surgical technology
- Efficient clinical and surgical workflows

Exceptional Surgical & Clinical Exposure

Develop expertise in:

- Comprehensive ophthalmology
- Premium and refractive cataract surgery
- LASIK and PRK
- Oculoplastic surgery
- Medical Glaucoma

Accredited Private Surgical Facility

CEI offers access to a fully accredited private surgical facility with:

- Daily surgical access
- Advanced ophthalmic technologies
- Excellent surgical efficiency and autonomy
- Streamlined patient care environment

Mentorship & Professional Development

Structured mentorship is available in:

- Refractive cataract surgery
- Premium intraocular lenses
- LASIK and refractive surgery
- Oculoplastic surgery
- Practice management and surgical efficiency

This role is particularly attractive for recent graduates seeking a supportive transition into independent practice while expanding advanced surgical skills.

Partnership & Growth Opportunity

Unlike traditional locum positions, this role offers a clear pathway to future partnership for candidates interested in building a long-term career in Saskatchewan.

Compensation & Lifestyle

CEI offers:

- Exceptional earning potential
- Flexible scheduling
- Strong surgical and procedural revenue opportunities
- Long-term financial growth through partnership

Life in Saskatoon

Saskatoon offers an exceptional quality of life with:

- Beautiful river valley trails and parks
- Vibrant arts and culinary scene
- Family-friendly communities and excellent schools
- International airport access
- Strong medical and academic community anchored by the University of Saskatchewan

Candidate Qualifications

Applicants must possess:

- Certification or eligibility for certification with the Royal College of Physicians and Surgeons of Canada (RCPSC)
- Eligibility for licensure with the College of Physicians and Surgeons of Saskatchewan (CPSS)
- Eligibility to practice medicine in Saskatchewan
- CMPA membership and appropriate professional liability coverage
- Excellent interpersonal and communication skills
- A collaborative and patient-centered approach to care
- Legal entitlement to work in Canada

Conlon Eye Institute also welcomes internationally trained ophthalmologists and offers structured clinical supervision in accordance with the requirements of the College of Physicians and Surgeons of Saskatchewan (CPSS) to support eligible candidates in achieving full licensure in Saskatchewan. This pathway provides mentorship, guidance, and progressive integration into independent specialist practice within a collaborative and supportive environment.

Language of Work

English

Your Role at CEI

The successful candidate will:

- Provide comprehensive ophthalmic care
- Diagnose and manage medical and surgical eye disease
- Perform cataract and refractive procedures
- Deliver exceptional patient-centered care
- Collaborate closely with physicians and healthcare professionals
- Participate in continuing medical education and professional development
