Comprehensive Ophthalmologist

Aqua i Laser Surgical & Clinical Centre is a well-established and rapidly growing ophthalmology surgical centre in Winnipeg, Manitoba. Due to continued expansion and increasing patient demand, we are seeking a Comprehensive Ophthalmologist to join our team.

The successful candidate will have the opportunity to establish and grow a comprehensive ophthalmology practice within a modern, high-volume clinical and surgical environment equipped with advanced diagnostic and surgical technology. The centre maintains strong collaborative relationships with local healthcare providers and academic partners, providing opportunities for both clinical and academic involvement.

Qualifications

The ideal candidate will possess:

Full licensure, or eligibility for full licensure, with the College of Physicians and Surgeons of Manitoba (CPSM)

Certification by, or eligibility for certification with, the Royal College of Physicians and Surgeons of Canada in Ophthalmology

Experience in comprehensive ophthalmology and cataract surgery

Excellent clinical and surgical skills with a commitment to high-quality patient care

Ability to work efficiently in a busy and fast-paced environment

Strong communication, teamwork, and professionalism

Research experience, clinical audits, teaching, or peer-reviewed publications are considered assets, as the centre actively collaborates with the University of Manitoba and participates in academic and clinical research initiatives

Practice Opportunity

Comprehensive ophthalmology practice with immediate patient volume

Position available as either a locum or permanent appointment, depending on the candidate's preferences and mutual agreement

Fee-for-service compensation model with excellent earning potential

Flexible practice arrangements

Opportunities for teaching, research, and professional development
Supportive and experienced administrative and clinical team
Access to state-of-the-art diagnostic and surgical equipment

Facilities

Aqua i Laser Surgical & Clinical Centre features:

Two fully equipped operating rooms designed specifically for ophthalmic surgery
State-of-the-art cataract and anterior segment surgical technology
A dedicated excimer laser suite for refractive surgery
Advanced diagnostic imaging and testing equipment
Modern electronic medical record systems and efficient clinical workflows

Location

Aqua i Laser Surgical & Clinical Centre is conveniently located on Taylor Avenue, just off Kenaston Boulevard, in one of Winnipeg's most desirable and rapidly developing healthcare and commercial corridors. The location provides easy access from all areas of the city and is situated near major residential developments, healthcare facilities, and the expanding southwest Winnipeg region.

Further information about the centre can be found on our website: aquailaser.ca
