Comprehensive Ophthalmologist – Cataract & Refractive Surgeon

Associate to Partnership Opportunity

**Build a High-Volume Surgical Practice with One of Canada's Premier
Ophthalmic Centres**

Conlon Eye Institute
Saskatoon, Saskatchewan, Canada

Exceptional Opportunity for Comprehensive Ophthalmologists

Conlon Eye Institute (CEI) invites applications from outstanding **Comprehensive Ophthalmologists with a passion for Cataract and Refractive Surgery** to join one of Canada's premier comprehensive ophthalmology and surgical practices.

Whether you are an experienced ophthalmologist looking to expand your surgical practice or a recent graduate seeking mentorship while developing advanced surgical expertise, CEI offers an exceptional opportunity to build a rewarding career within a collaborative, innovative, and patient-focused environment.

This is far more than an associate position. It is a **long-term career opportunity** offering immediate access to an established patient base, significant surgical volume, leading-edge technology, comprehensive mentorship, and a clearly defined pathway from **Associate to Equity Partner**.

At CEI, you will have the opportunity to build a practice combining comprehensive ophthalmology with premium cataract surgery, refractive cataract surgery, LASIK, and PRK while enjoying an exceptional quality of life in one of Canada's fastest-growing cities.

Practice Highlights

- ✓ Immediate access to an established comprehensive ophthalmology practice
 - ✓ Large surgical waitlist with immediate cataract surgery opportunities
 - ✓ High-volume premium cataract and refractive surgery
 - ✓ Dedicated LASIK/PRK/RLE and refractive surgery program
 - ✓ Accredited private surgical center
 - ✓ State-of-the-art diagnostic and surgical technology
 - ✓ Strong province-wide referral network
 - ✓ Experienced multidisciplinary clinical and surgical team
 - ✓ Structured mentorship and career development
 - ✓ Clearly defined Associate-to-Partner pathway
 - ✓ Exceptional earning potential
 - ✓ Outstanding work-life balance
-

Why Join Conlon Eye Institute?

Build a Busy Surgical Practice from Day One

Unlike many practices where physicians spend years building surgical volume, CEI provides immediate access to an established referral network and significant surgical demand.

Benefits include:

- Immediate access to an extensive cataract surgery waitlist
- Established referral relationships throughout Saskatchewan
- Growing demand for refractive cataract surgery
- Expanding laser vision correction program
- Comprehensive ophthalmology patient base
- Experienced clinical support staff
- Efficient scheduling and practice management systems

This allows physicians to focus on delivering exceptional patient care while rapidly building a successful practice.

Comprehensive Surgical Opportunity

Develop and maintain a diverse practice including:

- Comprehensive ophthalmology
- Premium cataract surgery
- Refractive cataract surgery
- LASIK
- PRK
- Medical glaucoma
- Corneal disease
- Ocular surface disease
- Dry eye management
- Medical retina
- General anterior segment disease

The successful candidate will have the opportunity to build a practice tailored to their professional interests while benefiting from strong patient demand and an established referral network.

On-site Accredited Private Surgical Centre

CEI's fully accredited, on-site private surgical centre offers:

- Dedicated cataract surgery operating time
- Dedicated refractive surgery scheduling
- Modern operating suites
- Outstanding surgical efficiency
- Experienced ophthalmic operating room staff
- Exceptional patient satisfaction
- Streamlined patient flow
- State-of-the-art surgical equipment

Designed specifically for ophthalmic surgery, our facility allows physicians to maximize efficiency while delivering exceptional patient outcomes.

Mentorship & Professional Development

Our physicians believe in developing future leaders in ophthalmology.

Whether you are an experienced surgeon seeking to expand your refractive practice or a recent graduate transitioning into independent practice, mentorship is available in:

- Premium cataract surgery
- Advanced refractive cataract techniques
- Multifocal, Toric, and Extended Depth of Focus IOLs

- LASIK and PRK
 - Practice management
 - Referral development
 - Surgical efficiency
 - Leadership development
 - Practice growth
-

Associate to Partnership Pathway

Conlon Eye Institute is committed to developing long-term physician partners.

Candidates who demonstrate clinical excellence, professionalism, leadership, and a commitment to the practice will have the opportunity to progress from **Associate to Equity Partner** through a structured and transparent partnership pathway.

Partnership provides the opportunity to participate in the continued growth and future success of one of Saskatchewan's leading ophthalmic practices while building long-term personal and professional success.

Compensation & Benefits

Conlon Eye Institute offers:

- Competitive compensation with exceptional earning potential
 - High surgical volume
 - Significant procedural revenue opportunities
 - Flexible scheduling
 - Comprehensive administrative support
 - Experienced clinical team
 - Modern surgical facilities
 - Long-term Associate-to-Partner career progression
-

Why Saskatoon?

Saskatoon offers one of Canada's best lifestyles for physicians by combining exceptional professional opportunities with an outstanding quality of life.

Enjoy:

- Affordable housing
- Excellent public and private schools
- Safe, family-friendly communities
- Championship golf courses
- World-class fishing and outdoor recreation
- Vibrant arts and culinary scene
- International airport
- Growing economy
- Strong academic and medical community anchored by the University of Saskatchewan

Saskatoon offers the professional opportunities of a major centre while maintaining the lifestyle and sense of community that make it one of Canada's most desirable places to live.

Candidate Qualifications

Applicants must possess:

- Certification or eligibility for certification with the Royal College of Physicians and Surgeons of Canada (RCPSC)
- Eligibility for licensure with the College of Physicians and Surgeons of Saskatchewan (CPSS)
- Eligibility to practice medicine in Saskatchewan
- CMPA membership and appropriate professional liability coverage
- Excellent communication and interpersonal skills
- A collaborative, patient-centred approach to care
- Legal entitlement to work in Canada

Internationally trained ophthalmologists are encouraged to apply.

Conlon Eye Institute supports eligible internationally trained physicians through structured mentorship and clinical supervision in accordance with CPSS requirements, assisting candidates as they progress toward full licensure and successful integration into specialist practice in Saskatchewan.

Your Role

The successful candidate will:

- Build and maintain a busy comprehensive ophthalmology practice.
 - Perform high-volume cataract surgery, including premium and refractive cataract procedures.
 - Perform LASIK and PRK refractive surgery.
 - Evaluate and counsel patients regarding premium intraocular lenses and refractive surgery.
 - Diagnose and manage cataracts, glaucoma, corneal disease, retinal disease, ocular surface disease, and other ophthalmic conditions.
 - Perform outpatient consultations, emergency consultations, follow-up assessments, and post-operative care.
 - Collaborate with ophthalmologists, optometrists, family physicians, and healthcare professionals throughout Saskatchewan.
 - Maintain accurate medical records in accordance with professional standards and applicable legislation.
 - Participate in continuing medical education, quality improvement initiatives, and professional development.
 - Contribute to the continued growth of CEI's cataract and refractive surgery programs.
-

About Conlon Eye Institute

For more than three decades, Conlon Eye Institute has been recognized as one of Saskatchewan's leading ophthalmic centres, providing comprehensive eye care, advanced cataract surgery, laser vision correction, and innovative surgical treatments.

Our commitment to clinical excellence, investment in leading-edge technology, and collaborative culture has earned the trust of patients and referring healthcare professionals throughout Saskatchewan.

Supported by a highly experienced multidisciplinary team, CEI provides physicians with the resources, technology, mentorship, and infrastructure needed to build successful, rewarding careers while delivering outstanding patient care.
